## About Harrison Spinks

Harrison Spinks is a fifth-generation family bedmaker that employs over 700 people, which includes a variety of trades from farmers to engineers to expert bed makers. Handcrafting premium luxury mattresses since 1840 and is one of Great Britain's most established, innovative and sustainable bed manufacturers.

All our mattresses are 100% foam, glue and FR chemical treatment free and fully recyclable – better for a healthy sleep and kinder to the planet. Harrison Spinks is proud to have been awarded a number of Queen's Awards for Enterprise. Each award – for Innovation, International Trade and Sustainable Development – symbolises the commitment and dedication Harrison Spinks shows.

## Problem Identified

Harrison Spinks had relied for decades on manual health & safety systems which entailed huge amounts of paper form-filling across its multi-site operation. Not only was this labour-intensive, it was also very much open to human error and oversight. As the company expanded and professionalised, it understood that a digital, evidence-based compliance platform would streamline the daily operation and improve standards of incident reporting and safety. The Compliance Genie app also allowed for the H&S team to have dashboards in place which in turn allowed for complete oversight of H&S issues such as staff training document or equipment checks sign-offs.

## Solution

Implementing Compliance Genie across the business and being able to customise it to different departments and processes being undertaken was a massive positive. Be-Safe have supported us in every step along the way in building our platform to what it is today. Having Compliance Genie in place has drastically reduced the elements of oversight or human error in reporting incidents, while making the H&S team instantly aware of reported incidents. Sustainability is one of our core business values and having Compliance Genie in place has massively reduced the sometimes overwhelming amount of paperwork involved in some processes, with easy to amend/build forms and a impressive variety of documents and templates available.

“”

## What they Said

“Compliance Genie has definitely played a part in Harrison Spinks improving its H&S management and compliance systems, while also having a positive impact on H&S culture. It allows for every employee to have instant access to all relevant H&S documentation which has streamlined processes. The platform is very user friendly with high levels of support from the Be-Safe team.”
