

# Features of The Compliance Genie™

## Time and Attendance

Sign IN and OUT wherever you are with total accuracy - with QR codes too!

## Induction Delivery

Training videos, induction checklists and incident and emergency procedures.

## Risk Assessments

Carry out detailed risk assessments in the workplace.

## Accident and incident reporting

Keep track of incidents, create reports and prevent incidents before they happen.

## Managing equipment

Tag equipment with smart QR Codes and scan to make monitoring easy.

## Secure Single Sign-On

We use Okta and Microsoft Azure for a faster, more secure, error-free sign-on.

## Document distribution and sign-off

Distribute docs in real-time and sign off with any mobile device with photo capture.

## Safety audits

Create custom audits using photo and video to make things more engaging.

## Time and GPS stamped

GPS time tracking gives a real-time view of employees whereabouts.

# Trusted by

With the increasing presence of Health and Safety and need for record keeping, Compliance Genie ticks all the boxes. Within the construction industry I would thoroughly recommend the investment!

**Matthew**  
Quality Assurance Officer, UK

From the outset, we were impressed by Be-Safe's solutions-based approach founded on strong operational experience and insight. It made a huge difference working with a team that understands real-world compliance needs, rather than dealing in abstract concepts. This meant we were able to move quickly to go live with the system, and I am delighted to say it has transformed our business.

**Nicky Taylor**  
Managing Director

Compliance Genie has definitely played a part in Harrison Spinks improving its H&S management & compliance systems, while also having a positive impact on H&S culture. It allows for every employee to have instant access to all relevant H&S documentation which has streamlined processes. The platform is very user friendly with high levels of support from the Be-Safe team.

**Rob Elgie**  
Health & Safety Asst Manager

Be-Safe was absolutely the right company for us and they made everybody's job so much simpler with their initial comprehensive training, implementation support, and ongoing help.

**Jean-Pierre Rossouw**  
Operations Director, Parkguard
